

# Contact like-minded people in your area

Dear Friend of Auroville,

Auroville International USA has recently sorted its database of people who have an interest in Auroville or the Integral Yoga in general. During this process we noticed that some of you live near (a relative term) to other people with perhaps similar interests. We think some of you might want to meet each other.

This is your opportunity to make connections with others in your area. Some options for focusing a meeting might be very casual conversation about yourselves and your connection to Auroville or mutual exploration of a theme of common interest such as:

- Cultural, ecological, educational, and village related projects of Auroville
- Living an Integral Yoga practice in the US
- The connection of Integral Yoga and Auroville with other contemporary movements
- Celebrating Auroville's 40th Birthday

Describe your interests and we will try to help you create an event and find resources such as videos, writings, or speakers to make it fun.

If you are interested in exploring possibilities with your neighbors, simply fill in the form below. When you're done, fold this sheet in three so our address is on the outside, and yours is inside, and mail it back to us. Alternately you could call Bill Leon in Seattle at 206-364-6665 or email him at [billleon@geoeducation.org](mailto:billleon@geoeducation.org).

If you would prefer to respond via our website, you can do so at <http://www.aviusa.org>

- I would like to connect with others in my area who have an interest in Auroville / Integral Yoga and you can send my contact information to them.
- In addition, I would be interested in organizing or hosting a small gathering of folks with interests in AV /Integral Yoga. I'm interested in:
- having a visitor from Auroville or an AVI USA Board member talk at the gathering
  - showing a DVD or sllideshow at the event
- Inform me of events, but please don't give my information out.

MY special interests are:
